

## Can-Am Commander/Maverick & Yamaha YXZ 1000 Full Windshield

**Thank you for choosing Rough Country for all your UTV needs.**

Please read instructions before beginning installation. Check the kit hardware against the kit contents shown below. Be sure you have all needed parts and know where they go.

If question exist, please call us @1-800-222-7023. We will be happy to answer any questions concerning this product. Check all fasteners for proper torque. Check to ensure for adequate clearance between all components.

Periodically check all hardware for tightness.

### KIT CONTENTS:

- (1) Full Windshield
- (1) Windshield Seal
- (4) P-clamps
- (4) 1/4" x 1" Bolts
- (8) 1/4" Flat Washers
- (4) 1/4" Nylock Nuts

### TOOLS NEEDED:

- 7/16" Socket/Wrench
- Ratchet
- Rubber Mallet
- In-lbs Torque Wrench

*This is a universal kit. May contain extra components to fit multiple applications.*

**▲ NOTICE** *Never ride with your face/head near the windshield.*

### Installation Instructions

1. Make sure UTV is clean and free of debris.
2. Install the supplied seal on the windshield, seal lip out, by starting at the left corner and going around the bottom to the right corner. Use a rubber mallet to make sure the seal is completely seated on the windshield.
3. Place (2) of the supplied P-clamps on the forward most portion of the cab frame tubing. Make sure the flat portion of the P-clamp is towards the front of the UTV. Repeat on opposite side.
4. Place the supplied windshield into position, centered on the front cab frame surface, resting on the hood. Ensure the windshield is properly aligned using the bottom contour as a guide. **Should be centered over the matching dash surface contours.**
5. Loosely install the supplied 1/4" x 1" bolts, 1/4" washers, and 1/4" nylock nuts. Once desired position is achieved torque the hardware to 25in-lbs. **Do not over-tighten.**

**Periodically check all fasteners for tightness and re-torque as required.**

### Cleaning Instructions

1. Use an indirect high pressure water supply to rinse large dirt particles from the windshield.
2. Once the majority of dirt is removed, use warm soapy water and a cotton terry cloth to wash all windshield components.
3. Rinse thoroughly and allow to air dry.
4. Use a quality polish to clean and remove fine scratches from the windshield.
